

SKILLS DAY AT WYVERN COLLEGE – TUESDAY, 28TH JUNE, 2016

Are you considering career options for the future? Have you considered Games Development, Business or Finance, Engineering, Sport or Catering or even one of our Public Services as a possible career pathway?

Wyvern College are delighted to be hosting a Skills Day on Tuesday, 28th June. This event is for the whole school and students will be able to access 6 different skill areas to get hands on experience and to discover the different career pathways that can develop from them.

We are being supported by local businesses, the Army, Salisbury City Football Club, Wiltshire College (Salisbury), Bath Spa University, Careers at Sea to name just a few.

What better way is there to find out about a career idea than to get hands on experience from the experts!
